

LEADERS IN DATA CENTER VENTILATION

**High performance low leakage control dampers.
Extreme performance impact and high velocity
wind-driven rain rated louvers.**

Nailor Industries has been the proven leader in air control for over 50 years. Consistently first to market with innovative high-performance products, Nailor's commitment to quality is unsurpassed.

Proper control of ventilation is vital to the operation of mission critical data centers. Don't leave the efficiency of your system up to chance. Our line of high-performance, low pressure drop, aluminum airfoil control dampers with AMCA Class 1A leakage rated performance, coupled with protection from the elements with our extreme performance impact and high velocity wind-driven rain AMCA Listed louvers, provides the optimal combination for any facility!

Visit nailor.com for a look at our full line of best in class air control products.

DAMPER: MODEL 2020
LOUVER: MODEL 1605WDVM
