| Imperial Units (inches) | Metric Units (mm) |
|----------------------------|----------------------|
| 12 x 12 | 300 x 300 |
| 24 x 12 | 600 x 300 |
| 20 x 20 | 500 x 500 |
| 24 x 24 | 600 x 600 |

DESCRIPTION:

The Nailor model RALS Return Air Light Shield is designed to block reflected light and minimize direct "line-of-sight" through ceiling-plenum return grilles.

Constructed from galvanized steel and finished in a durable black powder coat finish, it installs quickly behind Nailor grilles to conceal plenum interiors.

The black powder coat finish not only minimizes visible reflection to blend seamlessly with standard ceiling plenums, but also provides superior corrosion resistance for reliable, long term performance.
