## **DESCRIPTION:**

- 1. The 59BS Plenum Slot Ceiling Diffusers have been designed for standard lay-in T-Bar application.
- 2. The 59BS design provides premium performance in perimeter curtain wall applications. An extruded aluminum pattern controller provides an adjustable vertical discharge along the wall or glass in perimeter applications.
- 3. The design is excellent for VAV, heating and cooling applications.
- 4. Standard nominal lengths are 24", 36", 48" and 60" (610, 914, 1219 and 1524) to suit imperial ceiling grids. Metric units are available. Standard H9 plenum height is 9" (229). Standard inlet sizes are 6" (152) round, 8" (203) and 10" (254) flat oval.
- 5. Plenum is corrosion resistant steel.
- 6. Finish: BK Black pattern controllers and exposed edges.
