

# PRODUCT SPOTLIGHT

## COMPLETE INDUSTRIAL AIR CONTROL SOLUTIONS!

For over 40 years, Nailor Industries has been the leader in designing and manufacturing durable, high performance dampers for industrial/heavy duty applications. Our goal is to deliver products that meet and exceed industry standards. Experienced, professional engineers, a state of the art testing laboratory for research and development, and the latest in manufacturing technology are the key ingredients that assure superiority of Nailor's products. With over 30 models to choose from, Nailor has your complete Industrial Air Control Solutions covered!

- Model Series 1500 - Heavy Duty Control Dampers
- Model Series 1700 - Steel (Optional Stainless Steel) Louvers
- Model Series 1900 - Heavy Duty/Industrial Control Dampers
- Model 1990 - Heavy Duty Round Industrial Control Damper
- Model 1995 - Heavy Duty Round Industrial Isolation/Control Damper

With a history of developing industry leading ideas, Nailor is known for its innovation and use of cutting-edge technology. Type 304 or Type 316 Stainless Steel custom built dampers and louvers can withstand the most stringent environments. Nailor products are installed in highly corrosive environments such as naval ships and waste water treatment facilities, natatoriums, laboratories, computer clean rooms and paper mills across the world. Nailor is committed to delivering products to job sites on time. With 5 plant locations, Nailor is meeting the needs of contractors and engineers around the globe.

### FEATURES

- Heavy gauge steel construction (standard)
- Optional Type 304 or Type 316 Stainless Steel construction
- Optional high temp finishes and coatings
- Selection of optional electric or pneumatic actuators
- Explosion proof actuators or actuator housings
